

... and other media. Recuva allows you to recover the deleted files quickly and easily. The files can be deleted due to accidental deletion, virus attacks, software errors, hard drive errors, system failures, and many other reasons. We offer a money back guarantee and provide a minimum of free support: it is your choice if you want to continue, refund or cancel the license key. However, we cannot refund your time and effort. Our support is easy and fast: reply to our e-mails to get immediate support, or post a request for help on our forum; click here. With Recuva, your work is easier than ever before. No need for complicated and inconvenient data recovery methods: our software handles the recovery of deleted files for you, in a single step. It supports almost all popular media types, including hard disks, optical discs, mobile phones, USB sticks, card readers, cameras, printers, and scanners. No need to worry about the safety of your data or any other problems: we take care of all of this for you, with just one click. **RECUVA RECOVER DELETED FILES – CONSOLE RECOVERY SOFTWARE (CLI AND GUI)** Recuva is a professional tool for Windows that recovers files deleted from your hard drive, Recycle Bin and other media. Deleted files may get lost forever, overwritten or accidentally damaged. We offer the solution to recover them, without any complicated or time-consuming data recovery methods. Recuva detects and recovers files of all formats and sizes from different types of media, including removable disks and memory sticks. Even if your files have been corrupted by virus, Recuva can recover them. The program recovers not only deleted files but also files that are inaccessible due to system errors, bad sectors or hardware failures. The deleted files may have been deleted with WinZip, WinRAR, WinZip, Windows Explorer, Windows Live Mail or Windows Mail, or by other file managers or file-deleting tools. Part of Recuva's features is a fast and easy-to-use software with a user-friendly interface. After you download, install and launch the tool, all you have to do is select the media where you have the deleted files and click "Recover". Program Features: Recovers files deleted from your Windows computer, Recycle Bin, external drives and other media. Rec 82157476af
